

Patient/Pacienti: **XHEVAT BERISHA**

Qyteti/Residence: **NEREDIME**

Reference/Kodi: **16020090.140/11**

Accepted/Pranuar: **3.21.2022 5:30**

Sex/Gjinia: **M**

Approved/Aprovuar: **3.21.2022 6:02**

Birthdate/Ditelindja: **13.11.1984**

ReferentName/Referuesi: **Analiz Covid ..**

COVID - 19

Analysis Analiza	Result Rezultati	Sample/Method Mostra/Metoda
ANTIGEN TEST	NEGATIV	Nasopharyngeal /ANTIGEN

Ne mostren e testuar nuk ka prezence per antigen te virusit SARS-CoV-2. Testimi eshte kryer me immuno-chromatography test.

There is no presence of SARS-CoV-2 virus antigen in sample. Testing conducted with immuno-chromatography assay.

Informate shites: Rezultati i testit indikon se nuk eshte detektuar prania e Antigenit te virusit SARS CoV-2 ne moster. Periudha mesatare e inkubimit te infeksionit COVID-19 eshte 5 dite dhe mund te variojne 2-14 dite. Rezultati negative nuk perjashton infeksionin COVID-19 dhe nuk duhet marre si te vetmin parameter per diagnose per menaxhimin e pacientit. Rezultati i testit varet nga koha e ekspozimit te pacientit ndaj virusit dhe pranise se shenjave dhe simptomave te ngjashme me COVID-19 andaj ne vecanti nese ka indikacione dhe kur testet diagnostike per shkaktaret tjere te semundjes (p.sh. semundjet tjera respiratore) rezultojne negative, ekziston mundesia qe testi ka rezultuar fals-negativ.

Note: A negative test result means that SARSCoV-2 Antigen was not present in the specimen above the limit of detection. Median incubation period is approximately 5 days but range 2-14 days. A negative result does not rule out COVID-19 and should not be used as the sole basis for treatment or patient management decisions. The possibility of a false negative result should be considered in the context of a patient's recent exposures and the presence of clinical presentation indicate that COVID-19 is likely, and diagnostic tests for other causes of illness (e.g., other respiratory illness) are negative.

Medina eshte laborator i licensuar nga Ministria e Shendetesise se Republikes se Kosoves per testimin me metoden Rapid test Antigen per patogjenin SARS-CoV-2. Vendimi nr. 221/2019/02.

Medina is a certified laboratory by Ministry of Health of Republic of Kosovo for Antigen detection for SARS-CoV-2, decision no. 221/2019/02.
